Go to any city in Europe – Rome, Barcelona, Paris, Berlin or London. Look around for a few minutes and you’re sure to see the SH name. The two go hand in hand. The new SH125i and SH150i will prepare you for the city more than ever before. With distinctive LED lights, Smart Key technology and enough under-seat storage for a full-face helmet, you get a classic sophisticated style with modern city convenience. There’s even a 12v socket, allowing you to keep your device charged on the move.

**SMART KEY**

This innovative technology improves both convenience and security. As long as your key is in your pocket or bag, you can release the seat and start the engine with the press of a button.

The specific details of this brochure do not apply to any particular product supplied or offered for sale. Manufacturers reserve the right to vary specifications, including colours, with or without notice at such times in such manner as deemed appropriate. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. Consult your Dealer for details regarding the specifications of any featured product. This publication shall not constitute - under any circumstances whatsoever - an offer by the Company to any individual. All sales are made by the Distributor or Dealer subject to and with the benefit of the standard Conditions of Sale and Warranty provided by the Distributor or Dealer, copies of which may be obtained upon request. While efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specific details with the supplying Dealer, especially if a selection is dependent upon one of the features advertised. Please contact your local dealer for information and specifications. Please note that the fuel consumption figures provided are results obtained by Honda under standardised testing conditions prescribed by WMTC. Tests are conducted on a rolling road using a standard version of the vehicle with only one rider and no additional optional equipment. Actual fuel consumption may vary depending on how you ride, how you maintain your vehicle, weather, road conditions, tyre pressure, installation of accessories, cargo, rider and passenger weight, and other factors. You accept that if you do go ahead and make a purchase or enter into any kind of transaction, whether for payment or not, you did so entirely in reliance on your own skill and judgement and not on that of anyone else.

---

**RIDE WITH STYLE**

Read the owner’s manual thoroughly. Get to know your machine and its capabilities. Concentration assists anticipation. Observe other road users’ movements. Brake in plenty of time. Always wear a helmet and quality kit, ride fit and NEVER after drinking alcohol. Good roadcraft and courtesy identify the skilled and stylish rider. Honda endorse the law that all helmet visors must comply with BS 4110. Visors that transmit less than 50% of visible light cannot legally be used on the road.
ALWAYS MOVING FORWARD

At Honda, we understand urban mobility better than anyone, because we helped to create and shape it. The SH125i and SH150i have been keeping people one-step ahead for the last 30 years. Every new model is an evolution of the last, each with more style, more technology and more convenience packed in. That’s how we’re able to create an experience that’s always ahead, always moving forward.

Looks are nothing without the ability to perform. Fortunately, the new SH125i and SH150i have both. Large 16” wheels combine with Michelin™ City Grip tyres to offer more control in wet, uneven conditions. Add in ABS as standard and you get a confidence-inspiring riding experience, whatever the weather.

SPECIFICATION

SH125i ABS

Engine
- Type: Liquid-cooled 4-stroke SOHC single
- Displacement: 124.9 cm³
- Bore x Stroke: 52.4 mm x 57.9 mm
- Compression Ratio: 11.0:1
- Carburation: PGM-FI electronic fuel injection
- Max. Power Output: 8.98 kW / 8,500 rpm
- Max. Torque: 11.5 Nm / 7,000 rpm
- Starter: Electric
- Ignition System: Digital transistorised with electronic advance

Wheels
